"THE LINE IS BUSY" is an answer that does not fit in  
with the spirit of business. If you have enough telephone  
circuits running into your office your customers will  
never be told that your line is busy.

Are all the members of your family identified in the tele-  
phone directory? For instance, is there some one at  
your home who cannot be found by persons who wish to  
reach him or her by telephone? Additional listings are  
inexpensive.

## Don't Buy Attachments for Your Telephone

Your telephone instrument is the result of many years of study and experiment conducted by those who know the most about the art of telephony. Proper performance depends on the use of your telephone instrument as furnished by the Company.

Subscribers are urged not to buy attachments advertised or those offered for sale by peddlers. They will impair your service rather than improve it.
